

# DATA LOGGER

## SPECIFICATION

Model : DTS 0208M

Number of inputs : 8 channels

Recording : 2,340 events (expandable to 20,000)

Realtime Recording to nonvolatile memory

Measuring Input : analog 0-5 Vdc or 4-20mA(option)

Resolution : 19.53 mVdc

Input resistance :  $4.15 \pm 0.15 \text{ M}\Omega$

Measurement error : 0.2% (0.8 % max)

Logging Rate (Sample Interval) : 1 second....60 minutes;

1....24 hrs (programmable)

Recordable data without connecting to pc

Serial I/O : RS 232

Configuration & preset by PC

Software : SDT 108-02 operating on pc under windows 95,98  
displayed as data or graph

Power supply : 220 Vac/50 Hz 0.4 watt or 12Vdc/25mA

Dimension : 18.2 x 5.6 x 10.0 cm

Weight: 1.2 kg

*2-Year warranty*
